What makes a great sports betting app

A great sports betting app is packed with features and optimized for quick, reliable, on-the-go wagering.

Here's what we look for in a mobile betting app:

User experience

Some features to look for include bonuses and promotions, early cash out, and live streaming.

Bet types

A sportsbook app should offer a broad selection of sports and bet types while making it easy for its users to locate, preview, and submit their bets.

Popular wagers include the moneyline, Over/Under (totals), point spreads, futures, teasers, props, same game parlays, and live betting.

Banking options

The top mobile sports betting apps give their users the option to choose from a variety of sportsbook deposit and withdrawal methods.

Look for a mobile app with two-step verification, timed logouts, and precise geolocation software.
